

CM30 and CM35 cutting machines

Lillbacka Powerco has extended its production range with new cutting machines. The new CM30 and CM35 are pioneers for the next generation Finn-Power bench top cutting machines.

Finn-Power CM30 and CM35 cutting machines are manually operated and designed especially for service use, in workshops and service vans. They can be used for cutting up to 2" braided hoses efficiently, fast and safely. Both models are equipped with a fume exhaust connections.
